The Telephone Gets You There First

If you have an appointment and will be a little late; if you have no appointment and wish to make one; if you have an order to place or confirm; if you have any matters to take up with a busy man—don't take the time and energy to call on him—use your telephone first.

By using your telephone you will save your time and his—you will avoid waits and delays—you will reach your man at once in a direct and personal way. A busy man appreciates your courtesy in using the telephone to relieve his mind. It increases your efficiency and his.

Unnecessary Trips—Waiting—Delays—Lost Time—Energy and Money—May be Saved by Using the Telephone

Isn't it Worth While to make an Extensive Use of Your Telephone?

A FEW THOUGHTS FOR THE BUSINESS MAN

Advertising is a part of the running expense of a business just the same as rent or clerk hire.

When business is good it is poor policy to weaken your selling force by cutting down your advertising.

When business is quiet an added stimulant will sometimes go far in aiding to revive it.

Good advertising stimulates business.

Continuous advertising wins.

It has been frequently asserted that the Telephone Directory is one of the best printed media for continuous and persistent advertising.
